

Drivesys ^{NEW} Split Stone Patented Driveway System

With a contemporary look and smooth lines Drivesys Split Stone can give a sophisticated feel to a wide range of properties

Drivesys Split Stone, Basalt (B)

- Featuring the signature 'Drivesys' contoured base, Split Stone possesses the character of premium stone, yet the reliability of a modern driveway system
- Five complementary sizes created from real stone masters, ensure a cost effective but stunning alternative to natural stone setts
- Lay on a standard driveway sub-base of MOT Type 1 and sharp sand. See page 159 for more details

Marshalls recommends the patented Drivesys Driveway system is installed by Marshalls Register Installers

Drivesys Split Stone, Grey Green (GG)

Basalt (B)

Grey Green (GG)

	Sizes mm (nominal)	No. item/pack	Weight (kg/pack)	Area (m ² /pack)	Colours	
Project Pack	220 x 160 x 60	80			B GG	see website
	200 x 160 x 60	32				
	180 x 160 x 60	64				
	160 x 160 x 60	16				
	120 x 160 x 60	32				
Ready mixed jointing	15kg	3			G	
Total/pack			930	7.216		

Drivesys blocks come with a protective transportation seal which will remain slightly slippery underfoot until weathered. Once dissipated blocks may appear lighter in colour.

To complete every 'Drivesys' driveway, each pack is supplied with the right amount of ready mixed jointing compound, minimising fuss and number of deliveries.

For diagrams and important installation guidance, see page 159
